

The **Swinford Program** utilizes fundamental analysis to project flat price (directional) price movement primarily in the CME meat complex. The Swinford program also establishes positions in the Chicago Board of Trade ("CBOT") feed grain sector based upon fundamental market analysis. *The Kottke Associates Swinford Managed Program provides proven returns with low correlation to technical trading programs.*

Start to date: 357.0% Sharpe Ratio: 0.98 Trailing 12 Months: 3.1%

Disclaimer: There is risk of loss in futures and options trading. Past performance is not necessarily indicative of future results. Barclay Discretionary VAMI (Value Added Index) is a CTA trend following benchmark provided by Managed Account Reports LLC.
